ASPIRE - An insight into the pattern of competitive exams:

The pattern of this ASPIRE and its evaluation system is exactly same as that followed by professional courses like CA & CS. This will familiarize the students with the system of professional exams in the field of Commerce.

Assistance in selecting the right career-option:

A good performance in the ASPIRE may remove many of your myths about the professional courses and motivate you to take-up the 'so-called difficult' courses with lot more confidence.

ASPIRE - An idea about your competitive standing;

This is a city-wide competitive exam where Board students from best schools of the city will compete with each other. This will give you an idea about your competitive standing among them.

ASPIRE - No separate preparation required:

As the carefully selected subjects and topics for the ASPIRE are same as those in the 12th standard commerce syllabus, no separate preparation will be required. The ASPIRE exam will be a confidence-boosting for the upcoming Board exams.
